

Hindleap Warren

Year 7, 8 and 9 students had a fantastic time on their outward bound activities weekend in East Sussex. Thank you to Ms Taylor for leading the trip along with Mr Collis. I had a great time doing archery with some girls in Year 7 and many of the students really challenged themselves with activities involving high ropes and also lots of mud!! We had a great weekend and there are lots of photos on the last page of this edition.

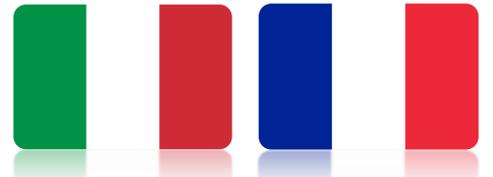

Year 10 Work Experience Day and Evening

Tuesday was a big day at the school for Year 10, who have now become Year 11. They had a whole day of working with mentors and visitors from HSBC and this is all part of their preparation for their Work Experience placements. In the evening we met with parents about Work Experience and we also had a special targeted Parents' Evening for those students who are behind in their academic tracking of grades. Well done to Ms Miller and Ms James who led the whole day and evening.

Trips and Educational visits this week

Ms Montgomerie was in Italy all week with girls from Year 10, teachers and girls from Mulberry School for Girls on a joint trip. Ms Boyer and Ms Holdcroft took students to France on Wednesday for a fantastic day trip to Boulogne. A great week at the school - all very exciting.

Sheriff's Lunch

Following our victory in the Sheriff's Challenge back in March, the winning team had the privilege of being invited to have lunch with a group of High Court Judges at the Old Bailey on Wednesday. Joined by Ms Frankum, Mrs Holden and members of the Livery company who had mentored the group it was a huge privilege for the students to meet the Judges, discuss their studies and enjoy yet another unique experience. This is another great outcome of the group's victory and we continue to be very proud of them. Well done to Asha-Ayan Mohamed, Jean-Pierre Telesford, Manazar Dahir, Afis Adeyemi & Omer Jama.

Thank you, Mrs Holden – Executive Principal

Sixth Form

It's been a busy week for Year 12. On Tuesday, they went to the UCAS Exhibition Fair at the University of London where they were able to visit information stands not only from Universities across the country but they also had the opportunity to talk to people about Higher Degree Apprenticeships.

On Wednesday, they spent the morning with representatives from Unidosh who came in to deliver sessions across the morning about University finance. These sessions are vital in providing students with information about University finance as well as managing budgets as a University student. It is so important that students are aware of the costs but also know how they can be managed to support them with their studies.

On Thursday, students visited the University of Leeds to learn more about the University application process as well as visiting a University outside of London. It was a long day but students gained a huge amount of information about personal statements. The application system is open now so we want all of them to get ahead of the process! Many thanks to Mrs Sezen, Ms Gumus and Mr Matsangos for their time in supervising the trip.

Finally, today we had our leavers' assembly where we said goodbye to our amazing Year 13 students. They have worked so very hard over the past two years and we wish them the very best for the future.

GCSE Art Coursework by Hiba Bouadlaoui Year 11

Student Council Interview our new Heads of House!

This week Student Council had an informative meeting where they were able to interview the new 'Heads of House.' Student Council used a questionnaire based on different questions put forward by a selection of different students from the school. Student Council found the process to be engaging and helpful in informing the rest of the school about key projects and changes the Heads of House have in mind to change the structure of the school in the new academic term. Stay tuned next week for an updated power-point that will be made by our student council who will be sharing all the interesting feedback from our new inspirational leaders. A special thank you to Mr Stokes, Mr Calderon and Miss Moreno who gave up their time to discuss their plans for next year and the changes they seek to implement in the Academy's structure.

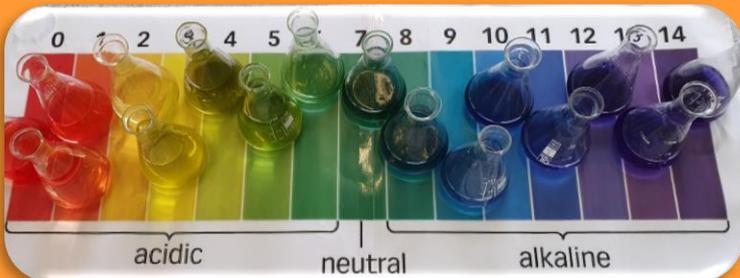

Ms Higdon

Year 7 Science Experiment

Year 7 have been learning about acids, alkalis and the pH scale in Science. They've been experimenting with various different acids and alkalis looking at naturalisation reactions and this week some got to make their own pH scale. Students made each solution using universal indicator; this gives different colours depending on how acidic/alkaline the solution they made is.

The students really enjoyed the practical, and did a fantastic job!

Mr Hodgson & Ms O'Connor

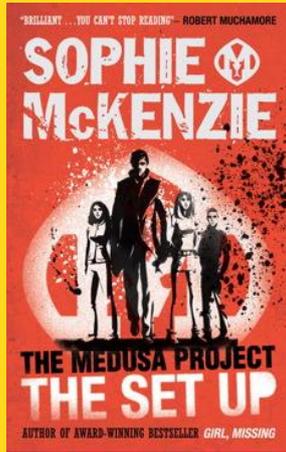

Attendance Figures

For 10th June 2019 – 14th June 2019

Tutor Group	Attendance Percentage	Tutor Group	Attendance Percentage

Book Review

Set- Up by Sophie McKenzie

This book is about a boy called Nico and he discovers that he has a power that can move things. Eventually he meets someone who explains to him about how he got his powers and he got it from a gene. Then he discovers he is not the only one with powers.

I chose this book because it is different to all the other books I have read and it is very interesting. I would definitely recommend this book because it's a book that everyone would enjoy.

Mariya Ahmed Year 7

School trips

At Mulberry Academy Shoreditch, we host a variety of trips for our students including international ones!

When your child gives you a trip letter please check that these have been organised by the school.

All information sent to parents/carers should be on headed note paper and signed by the member of staff who is organising the trip

Please make sure your child has the correct medication, a bottle of water an oyster pass (If required) when attending any trips with the school.

If in doubt, please contact the school reception on 020 7920 7900.

Ms Healy

Hello Mulberry Academy Shoreditch!

This week, we're profiling The Great Get Together! We are hosting our neighbour community organisers of the Boundary Fun Palaces who are putting on a special "bring and share" lunch for all the community on Saturday 29th June 2019 from 1.00pm – 4.00pm at our community centre in Club Row. Inspired by the Great Get Together Lunches that are held nation-wide in memory of Jo Cox's life and work, this event will bring us together to celebrate our amazing community. As Jo Cox famously said; *"We are far more united and have far more in common than that which divides us."* At St Hilda's East and Boundary Fun Palaces, we believe this saying rings true for the work that we do and the people we serve on a day-to-day basis.

If you are interested in joining the Great Get Together, please do come along! We will provide some food and cake, and if you are able to, please do bring some food if you can, however this is not a necessity.

With performances from the London Euphonia Quarter, traditional games, and a special appearance from our St Hilda's Girl Guides who will be fundraising for a summer Residential Trip, this Great Get Together is not to be missed!

We look forward to welcoming you!

Drop in and say hello to our friendly team in our Community Centre:

18 Club Row
London
