It will be a lovely event for students in the Trust.

### **STEM and Primary Schools**

Next week we have Year 5 students from Lawdale Primary School coming in to take part in STEM workshops with our Science, Maths and Computing Department. The workshops will introduce the students to robotics, computer programming and other interesting STEM topics.

### **Just Giving**

The last year has been extremely difficult for our students. As we come out of lockdown and our school begins to return to normal, there is an urgent need to give all our students the opportunity, not just to return to the classroom, but to have fun, to experience a trip somewhere, to feel the freedom of the seaside or a camping trip and to enrich their lives and undo the mental and emotional damage that lockdown will have caused. If you feel passionate about helping us to do this for our young people aged 11-18 – please donate to our Just Giving page – no matter how little or how much – you will make a difference to children's lives and we will acknowledge this.

## Sixth Form Update

On Wednesday, ten year 12 Economists took part in an exciting virtual workshop with the Bank of England. They met successful professionals and heard how they achieved their roles and discovered what life as an employee of the Bank of England is really like. Students learned valuable information on the role of the Bank of England in our economy and very much enjoyed being able to ask the professionals about their roles and how they got there. All Year 12 students have also completed the final week of their exams and we want to congratulate them for approaching it such a hardworking, professional way.

Finally, our year 13 students came back to school on Wednesday night for their Prom. It was so great to see them and the event was a lovely way to give them the send-off they deserve. There was lots of glamour and great dancing and the students had a wonderful time. Thank you to Mr Singh and all other staff involved for organising an amazing event.
