

Executive Principal: Mrs Ruth Holden, MA, NPQH

Wednesday 14th July 2021

Dear Parent/Carer of students in Year 12

We are sorry to inform you that today, we have been informed by Public Health England that there has been two confirmed cases of COVID-19 in Year 12. Year 12 have been, since the start of term, in a bubble, as have all year groups.

We have followed the national guidance and as your child is in Year 12 and could have been in contact with the affected students, as a precaution we have made the decision for students in Year 12 that have come into contact with the affected students to stay at home until **Friday 23rd July 2021**, unless Government guidance changes on the 19th July 2021. They should self – isolate. We are doing this to reduce the further spread of COVID 19 to others in the community. As this date falls outside of term time, students will resume as normal in September.

Students should return as normal on **Thursday 2nd September 2021**.

The school has followed Government guidelines strictly and carefully since students have been back at school this term. Students have been kept strictly in a year group bubble for lessons and social time and have not been with students in other year groups.

If your child is well on **Thursday 2nd September 2021** they should return to school as normal.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person.

<https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119. Please contact the school to inform us of their test results.

All other household members who remain well must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

The 10-day period starts from the day when the first person in the house became ill.

Part of the

Mulberry
Schools Trust

Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 10 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

If you are able to, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period this is advised.

Please see the link to the PHE 'Stay at Home' Guidance:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

Symptoms of COVID 19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further information is available at
