

KS5 BTEC Home Learning

Expectations overview

Btec learners finish the school day at 11:10 or 1pm most days, therefore there is an expectation that all Btec learners log onto their laptop to engage with learning once they return home. The minimum expectation is that learners spend 2 hours a day writing up their coursework to meet deadlines which are outlined in the assessment map. Investing time daily on coursework will support all learners to meet Distinction criteria without resubmissions. Coursework materials including lesson PowerPoints and assessment briefs can be found on MS Teams. Learners will also be provided weekly exam papers, revision activities to consolidate learning and pre-reading tasks for exam units on MS Teams or as paper handouts. Completing home learning activities are essential to support students in preparation for exams and ensure learners success.

SUBJECT	FREQUENCY	HOME LEARNING	INDEPENDENT STUDY
BTEC Business	Weekly	Students will be set homework each week on MS Teams as an assignment. This will be in preparation for their exam units in January and June. Students will have a number of written coursework to be completed throughout the course, each week they will complete set assignments.	Continue with coursework / Revise for exam units
BTEC Health and Social Care	Weekly	Students will be set coursework tasks for each unit to complete at home, all resources can be found on MS teams. Students should spend roughly 1 hour a day writing up their course. Students will also be provided exam preparation materials such as past papers and essay planning packs to aid their revision.	Continue with coursework / Revise for exam units
BTEC Sport	Weekly	Student will be set examination questions and past papers when focusing on Unit 1 and 2. Once these are completed students will be expected to continue completing coursework tasks outside of lessons.	Continue with coursework / Revise for exam units
Applied Science	Weekly	Students will be set past papers and practice questions. These will initially be handed out in class.	Continue writing up coursework and revise for unit1/unit 3
