

## Executive Principal's and Principal's News

Thank you to Ms Kilmanaite for starting our first week of December with the fantastic festive display in the Street. Also thank you to our four Year 7 helpers who did a great job of decorating the Christmas tree.

As the festive season gets underway, students have been bringing items for the Foodbank collection – thank you. The Winter

Arts Showcase will take place on Wednesday and we would love to see lots of students and their families at the Winter Fayre on Thursday. There will be stalls, food, fun activities and a raffle (Please note this is a cash only event).

### Bexhill student's visit

On Tuesday – students from Bexhill came up to Mulberry Academy Shoreditch to take part in a special Art Workshop and then go for a

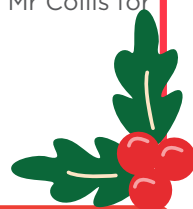

pizza at Rudy's in Shoreditch High Street.

This was a reward trip for students in the Bexhill Inclusion area who have behaved really well and deserved a trip to London.

Thanks to Ms Kilmanaite for leading the Art workshop for students and to Ms Montgomerie and Mr Collis for leading the trip.

Thank you,  
**Mrs Ruth Holden,**  
Executive Principal  
**Ms Melissa Gibson,**  
Principal

## Sixth Form News

### Great News from Sixth Form!

We are delighted to share that seven of our Year 12 girls have been successful in their interviews for the Global Girl Leading International Trips. They'll be heading off to some amazing destinations later this year. Here are the students and where they'll be going:

Aliyah Shekoni – New Delhi, India  
Jessica Williams-Cox – New Delhi, India

Tilly Moye – Venice, Italy

Dejah Renee – Mexico City

Zahra Tanko – Mexico City

Gulce Alte Erdogan – United States

Kadeja Ismail – United States

It's a fantastic achievement, and we're really proud of them.

The newly elected student leadership team met with Ms Gibson earlier this

week for Afternoon Tea. They discussed their new roles, the impact they hope to make, and how they plan to work with staff and with each other as a united team. It marks the start of an exciting year ahead.

Well done to all Year 13 students who have completed their mock exams over the past two weeks. Remember, mocks are an opportunity to spot areas for improvement and learn from mistakes. Make the most of your feedback lessons and use them to drive your progress. The next set of mocks for the whole year group will take place in January 2026.

Next week, the Portakabins return to full use. This means that timetables for Vocational lessons and GCSE English and Maths resits will return to normal. We are looking forward to welcoming everyone back into the space.

## UCAS UPDATE

### Vocational Y13 students

We have received offers for:

- Politics at Queen Mary's
- Economics at Goldsmith
- Criminology at University of Bath
- Cyber Security & Digital Forensics at Kingston University
- Nursing at London South Bank University
- International Politics and Sociology at City St George's

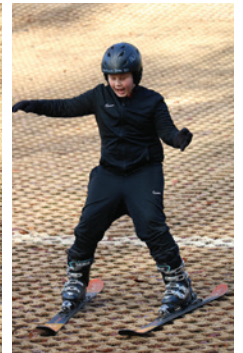

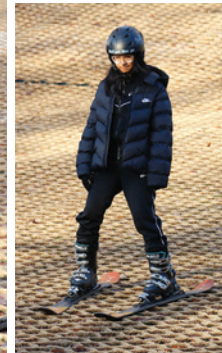

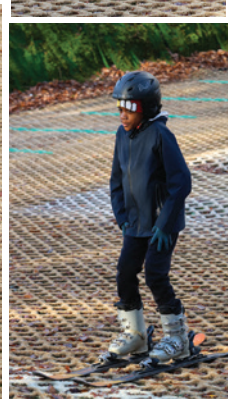

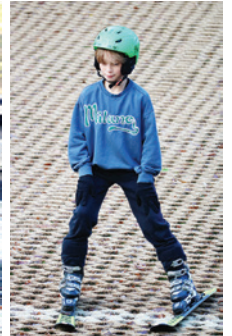

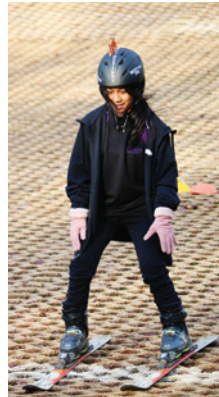

### A Level students

- English at King's College London
- Biochemistry at King's College London
- Biomedical Science at King's College London
- English Literature at University of Birmingham
- English Literature at University of Warwick
- English at Royal Holloway, University of London
- International Relations at Royal Holloway, University of London

# Year 7 on the Ski slope

A group of Year 7 students had their first ski session on Wednesday at Brentwood Park Ski & Snowboard Centre on Wednesday. They enjoyed learning new skills and all showed lots of courage and resilience, navigating the basics of skiing down the slope. They're looking forward to next week's session.

## Year 10 Geography Fieldwork at Epping Forest

This week, our Year 10 geographers ventured into Epping Forest to carry out their GCSE fieldwork on 'How river characteristics change downstream along Loughton Brook.' Students followed the course of the brook through a range of woodland environments, stopping at several sites to collect primary data.

Working in small groups, they measured changes in channel width, depth, and river velocity. For many students, it was their first chance to apply key geographical skills outside the classroom, and they quickly discovered that rivers in real life are a little muddier, splashier and far less predictable than the diagrams in their textbooks!

Alongside the data collection, students also developed important teamwork

and problem-solving skills as they navigated slippery banks, negotiated who would go into the water first, and discussed how to ensure their measurements were both reliable and accurate. The day offered a valuable opportunity to see how physical processes shape a river from source to mouth, helping to bring to life the concepts they will later analyse in their GCSE exams.

We were incredibly proud of their enthusiasm, resilience and positive

attitude throughout the trip. A big well done to all our budding geographers for representing the school brilliantly.

# TRAILFAM Race Team Race Report

Our wonderful Race Team athletes rounded out their 2025 race season with a strong display at Maverick Race Dark Oxfordshire. 10 MAS athletes braved the dark, wind and rain to achieve some fantastic results! When all was said and done, TrailFam and Mulberry Academy Shoreditch students placed 1st, 2nd, 3rd and 4th in the 13km race and 5th in the 7km race. We also had all of our female athletees place in the top 20 Juniors, with 3 inside the top 10. Well done to everyone!

## Inspiration and Opportunity

Last week, our Year 8 pupils took part in two inspiring experiences designed to broaden their horizons and spark their ambitions: a behind-the-scenes visit to the London Stock Exchange (LSE) and the launch of the IntoUniversity Buddy Programme at UCL East.

Both experiences offered Year 8 valuable insights into the world beyond school—from global finance to university life. We are proud of how engaged, curious, and enthusiastic our pupils were throughout both activities. We look forward to seeing how these opportunities help shape their aspirations and achievements in the months ahead.

## Young Mayor elections

Elections got underway this week for the Young Mayor of Tower Hamlets. Students voted online for their preferred candidate. Good luck to our three MAS students Bianca, Melissa and Israel who are all hoping to become the next Mayor!!

Mulberry Academy Shoreditch

### WORD OF THE WEEK

## Numerical Prefixes

Meaning	Greek prefix	Latin prefix	Examples
1	Mono	Uni	Monotone, Unicorn
2	Di	Bi, Duo	Binoculars, Dioxide
3	Tri	Tri	Triangle, Tripod
4	Tetra	Quad (quart)	Quadrilateral, Tetrahedron
5	Pent	Quint	Pentagon, Quintet
6	Hex	Sext	Hexagon, Sextet
8	Octo	Octo	Octopus
10	Deca	Deci	Decade, Decimal
100		Cent	Century
1000	Kilo	Mille	Kilometre, Millennium
Half	Hemi	Semi	Hemisphere, Semicolon
Many	Poly	Multi	Polygon, Multiply

## King's Trust Enterprise Challenge

Another brilliant group of Year 7 students took part in the King's Trust Enterprise Challenge this Tuesday. They impressed staff and mentors as they tackled an enterprise computer simulation game, making strategic decisions to run a virtual business.

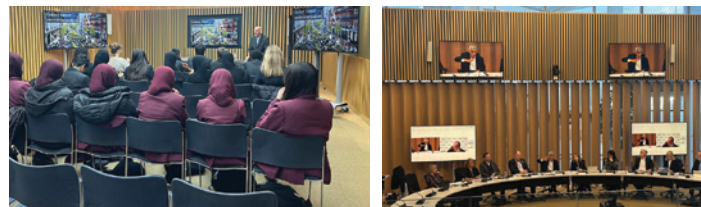

Students then worked in teams to create their own business ideas, developing plans and pitches that showed creativity and teamwork.

Well done to all the students for their enthusiasm and hard work!

## Politics Society trip

On Wednesday, the Politics Society visited City Hall, the office of the London Mayor and the London Assembly. The students got to observe two meetings, one of which was chaired by Sir Sadiq Khan who gave our schools a shout out! Students were able to witness the workings of a transport committee as well as an inquiry into violence against women and girls on public transport. They were also able to ask representatives about the workings of the London Assembly itself and raise issues about what was important to them in London. It was a fantastic visit that was made better by the outstanding input of the Politics Society students. We are already looking forward to our next trip to SOAS University.

## SUPPORTING YOUR CHILD TO STAY SAFE ONLINE

Weekly info

### Algorithms and what they show students

"The goal of most algorithms is attention, not accuracy."

**Fact:** Apps and websites are designed to keep users scrolling for as long as possible, often by promoting content that is shocking or emotional. This can expose students to conspiracy theories, extreme opinions, or inappropriate material because it gets more clicks.

**What parents can do:** Help your child understand that popularity doesn't mean reliability. Encourage "scroll breaks" and talk about how different apps make money from views and ads. Remind them to think, "Is this trying to inform me — or just get me to watch longer?". Go through your child's social media with them to check on what they are seeing. Ask their opinion on different posts.

If you have any concerns, please speak to your child's head of year or contact Lauren Gillott, E-Safety Lead ([lgillott@mulberryschoolstrust.org](mailto:lgillott@mulberryschoolstrust.org))

## MATHS PROBLEM OF THE WEEK

Did you manage to solve the maths problem this week?

Susan is attending a talk at her son's school. There are 8 rows of 10 chairs where 54 parents are sitting.

Susan notices that every parent is either sitting on their own or next to just one other person.

What is the largest possible number of adjacent empty chairs in a single row at that talk?

**ANSWER:**  
4 chairs

For the number of adjacent empty chairs in a single row to be a maximum, all rows apart from that one must hold as many parents as possible.

P	P	P	P	P	P	P	P	P	P
P	P	P	P	P	P	P	P	P	P

In view of Susan's observation, the maximum number of parents sitting in any row is seven, as the upper diagram shows. Therefore, the maximum number of parents in seven of the eight rows is  $7 \times 7 = 49$ . The number in the remaining row is then  $54 - 49 = 5$ . In that case, and again in view of Susan's observation, the maximum number of adjacent empty chairs would be four as shown in the lower diagram.
