

Going Places

Sixth Form Destinations 2026

“ Mulberry School for Girls Sixth Form’s extensive range of academic opportunities and programmes not only helped to consolidate my desire to study English Literature at university, but also profoundly motivated me to try my hardest in achieving exceptional grades.”

Tahmida
Mulberry School for Girls

“ I am looking forward to studying Dentistry, particularly learning about the science of the human body and developing my patient interaction skills. My time at MAS has given me access to exceptional teachers who possessed strong subject knowledge and could communicate complex concepts clearly and effectively.”

Jaylani
Mulberry Academy Shoreditch

“ My time at Mulberry Stepney Green has taught me that where you start does not have to determine where you finish. The support of my teachers and the opportunities I was given allowed me to develop my confidence, explore my interest in technology and challenge myself beyond the classroom.”

Mohammed
Mulberry Stepney Green

“ I have been at Mulberry School for Girls since the start of Year 7 and over the years the school has given me so many opportunities. This helped me with my confidence and all my teachers gave me so much support when I didn’t believe in myself. They believed in me and now I am going to LSE!”

Priyanka
Mulberry School for Girls

“ I am extremely proud of what I have accomplished throughout my time in Sixth Form and of the grades I have worked hard to achieve. I am looking forward to taking the next step and starting my Children’s Nursing degree at King’s College London, with the goal of pursuing a career in paediatric healthcare.”

Zaynah
Mulberry Academy Shoreditch

“ I have loved my time at Mulberry UTC and I am so excited for my next steps – Kings here I come!”

Maya

A message from the CEO

Welcome to *Going Places 2026*. This is always such a special publication because, at its heart, it is about our young people – their hard work, their ambitions and the exciting next steps they are taking as they leave Sixth Form.

Across our schools, students are moving on to an extraordinary range of destinations. Many are beginning university courses at institutions including Imperial College London, UCL, the London School of Economics, King's College London and the University of Warwick. Others have secured degree apprenticeships with organisations including Morgan Stanley, PwC, Taylor Woodrow and Unilever, while some are taking their first steps into employment. The range of subjects and pathways represented in these pages is equally impressive – from medicine, dentistry, engineering and computer science to English literature, law, nursing, the creative arts and many more.

What I love most about *Going Places*, though, is that it allows us to hear directly from our students. Behind every result and every destination is an individual story. Their words speak of teachers who believed in them, opportunities that helped them discover new interests, friendships that sustained them and the confidence they have developed along the way. That matters enormously.

Our ambition across Mulberry Schools Trust is to make sure every young person has the opportunity to thrive. Excellent qualifications are an important part of that, but education is about so much more. It is about opening doors, broadening horizons and helping young people recognise what they are capable of. Whether I am visiting one of our schools, talking to students and colleagues or joining school communities virtually, I see that ambition in action every day.

I want to thank all our staff, families, partners and wider school communities for the part they have played in supporting this year's students. Most importantly, to our class of 2026: congratulations. Be proud of what you have achieved and excited about what comes next. Take the confidence, knowledge and experiences you have gained with you, keep aiming high and make the most of every opportunity.

I hope you enjoy reading their stories as much as I have.

Alice Ward

CEO

Mulberry Schools Trust

Mulberry Academy Shoreditch Sixth Form is the embodiment of the MAS Way: an inclusive, ambitious and supportive community where every young person is empowered to fulfil their potential. Built on the belief that all students deserve a clear and meaningful progression route beyond Key Stage 4, MAS is proud to guarantee a Sixth Form place for every Year 11 student, ensuring that opportunity, aspiration and success are accessible to all.

At the heart of the Sixth Form are three key pillars. **Academic Ambition** challenges students to strive for excellence and achieve outcomes that open doors. **Your Next Steps** provides expert guidance and support, enabling students to make informed choices about higher education, apprenticeships and careers. **Beyond the Classroom** enriches students' experiences through leadership, enrichment and personal development opportunities, helping them grow into confident, resilient and well-rounded young adults.

The success of this vision is reflected in the remarkable growth of the Sixth Form, which has expanded from just 100 students to over 600 in the past seven years. This growth demonstrates the trust that students place in the provision and the strength of its reputation within the community.

The Sixth Form proudly serves a diverse student body, with 66% of students entering as low prior attainers and more than 55% identified as disadvantaged, both significantly above national averages. These figures highlight MAS's unwavering commitment to inclusion, social mobility and high aspirations for every learner. Through exceptional support, high expectations and a strong sense of belonging, MAS Sixth Form ensures that every student is equipped to thrive and succeed.

Mulberry School for Girls Sixth Form is a place where young women thrive, ambitions are nurtured and exceptional achievements are celebrated. Situated in the heart of Tower Hamlets, our girls' school has a proud history of academic excellence, inclusion and empowering young women to challenge expectations. We believe every student deserves an outstanding education, the confidence to pursue her ambitions and the opportunity to achieve extraordinary things.

Our students consistently achieve excellent academic outcomes, progressing to some of the UK's most prestigious universities, including University College London, the London School of Economics, King's College London and the University of Warwick. In 2026, our students achieved an average A-level grade of B-, with over 80% of grades awarded at A*-C. These achievements reflect the determination of our young women, the expertise of our teachers and our unwavering commitment to excellence.

At Mulberry School for Girls, excellence and inclusion go hand in hand. We are proud to serve a richly diverse community and are determined that background should never be a barrier to success. Through outstanding teaching, personalised academic and pastoral support, and exceptional enrichment opportunities, we ensure every young woman has the opportunity to flourish.

From the Mulberry STEM Academy in partnership with Mercedes-Benz Grand Prix Ltd to Model United Nations, international experiences, university partnerships and leadership programmes, our girls are encouraged to broaden their horizons, find their voices and challenge expectations.

Our students leave Mulberry School for Girls as confident, creative and compassionate young women, equipped with excellent qualifications, a strong sense of purpose and the ambition to shape their futures and make a difference in the world.

Mulberry Stepney Green is a high-achieving Sixth Form dedicated to fostering strong partnerships with students, helping them excel and achieve their full potential. Students quickly align with our core values: *Believe, Belong and Become*.

We offer a wide range of courses, including A Levels, BTEC Level 3 and Level 2 qualifications, all taught by highly qualified subject specialists. Our focus extends beyond academic success, encouraging the development of transferable skills through extracurricular and super-curricular activities. This holistic approach prepares students for life beyond Sixth Form, whether their next step is university, apprenticeships or employment.

Our established UCAS, early application and Oxbridge programmes are designed to meet each student's unique needs. For those pursuing competitive courses such as Medicine, Engineering or Computer Science, we offer additional tutoring and tailored guidance. Many of our students go on to study at prestigious universities, equipped with the confidence and resilience needed to thrive.

Inclusivity is at the heart of our Sixth Form and we welcome students from diverse backgrounds. Our exceptional pastoral support system ensures students feel supported throughout their time with us. Additionally, our active alumni network maintains strong connections with former students, who continue to contribute to the life of the school.

We look forward to welcoming you to the Mulberry Stepney Green community.

Mohammed • City St George's, University of London • Accounting and Finance • A* A A

“ My time at Mulberry Stepney Green has taught me that where you start does not have to determine where you finish. The support of my teachers and the opportunities I was given allowed me to develop my confidence, explore my interest in technology and challenge myself beyond the classroom.”

At Mulberry UTC, our two industry specialisms – health sector and the creative industries – guide our curriculum. Students study technical qualifications in Applied Science, Business and Marketing, Theatre and Digital Media, as well as the T Level in Health, alongside complementary A Levels in Science, Social Science, English, Film Studies, Maths and Drama. We prepare our Sixth Form students to be outstanding young professionals through a combination of academic and technical qualifications, outstanding classroom teaching and on-the-job learning. Our professional, adult learning environment ensures students leave us well prepared for their future careers.

We are passionate about ensuring all students have access to high-quality educational opportunities, whether they choose an academic, vocational or technical pathway. Our flexible and personalised curriculum supports students to secure excellent outcomes. Through partnerships with world-leading universities and companies, students undertake work experience with organisations including the NHS, Bank of America, the National Theatre and the Creative Media Skills Institute based at Pinewood Studios.

Our outstanding personal and spiritual development curriculum gives students opportunities to explore equality, tolerance, diversity and spirituality, while our project-based curriculum develops the confidence and communication skills needed for future success. In line with the MUTC Charter, our extra-curricular programme includes the Mulberry STEM Academy in partnership with Mercedes-Benz Grand Prix Ltd, a bespoke speaker programme led by industry professionals, Model United Nations, debating, art and film, alongside visits to museums, galleries and business and legal institutions. We offer a rounded education that makes the most of every young person's talents, skills and abilities, preparing them to succeed at university or in the world of work.
